Latest advices from the Cape confirm the rumours of fresh disturbances between the Zulus and the Boers.

A telegram received to-day from Pietermaritzburg says that several of Cetteywayo's partizans have invaded the Transvaal territory, and a fight is imminent.

LATEST NEWS

PRESS TELEGRAMS.

The following epitome of the latest news by telegraph, from all quarters, is taken from our colleagues—

Rosario, 20th.

Leon Mujica, Administrator of Customs in Parana, is dead.

The "Tom Leeds" has arrived with railway materials, and the "Bessie Morris" also.

There are five ocean steamers in port at present.

Montevideo, 20th.

Sixty thousand pats. subscribed for the new Preserved Meat Company.

Mr. Monson, British Minister, has sent the *Siglo* a copy of his note to Mr Morice, the agent of the Uruguayan Bondholders. Mr. Monson declines to act in the matter, not being authorised by his Government.

The Galicia has arrived from Liverpool:

Gayoso very bad.

The Italian Minister will insist on the Volpi and Patroni compact being carried out.

A MAMMOTH SCHEME.

The tenor of the appended proposal of a French Joint-Stock Company revives recollections of the much-commented Rothschild proposal. presented some time ago. The original scheme was considered a delusive dream, but the country has advanced much in two years, and what appeared to all an impractibilty twelve months ago, now assumes feasible forms. It is the old project resuscitated with some slight changes. The Government, we understand, approves the scheme, and Congressmen will no doubt give their sanction to a proposal that appears to embody a dazzling future of prosperity and development to the Republic. It means twenty-five million patacons fresh capital; two new railways, a new line of steamers and a few hundred thousand emigrants. The proposal is gigantic and shews the greedy spirit of enterprise of French bankers and their great faith in this country. The influence of French capital is more important than all the claims that the French Government can make on the mouth of the Amazon. The proposal is as follows:—

Buenos Aires, June, 12th 1883.

To H.E. Don Bernardo de Irigoyen, Minister of the Interior.

M. le Ministre,

E. Demarchy, as representative and in the name of a Syndicate of Paris bankers, the formation of which will be communicated to Y.E., has the honour of submitting to your Government and Congress the following proposal, thoroughly convinced that it will meet with the favourable welcome that accompanies proposals embodying great public interests; its advantages are so palpable and permanent and promise to the nation such a brilliant and immediate future that it will no doubt call the attention of Y.E.

The progressive groove of the country, the prosperity and solid foundations of the present Government, and the great vitality of the Republic have occasioned the formation of a company to carry out the great works mentioned in the proposal—works that will develope the great wealth of the Republic.

Although the Government has under consideration several proposals for the construction of two railways, from Bahia Blanca to the Andes, and another to Villa Mercedes, the Government will remark that the accompanying proposal not only includes the construction of these lines, but also the formation of a line of steamers, the construction of a dock, wharf, &c., and the immediate colonization of the Southern and Western regions of the republic, territories to be turned to account without burdening the Public Treasury, producing an economical status of prosperity amongst the people through this great movement of capital and vital interests. Furthermore, at the end of thirty years, the nation will become the sole and exclusive proprietor of works, which in a body tend to compete successfully with the Panama Canal.

The aims and conditions of the great purpose in view are as follows:—

Art. 1.—Mr. E. Demarchy, or the Syndicate, is authorised to form a Joint-Stock Company under the name of "Compaña General de Ferro-Carriles y Navegacion del Sud Argentino," with residence in the Argentine Republic.

Art. 2.—The object of the Company is the construction of docks and wharves in Bahia Blanca, railways, and the establishment of a line of steamers; all these works, materials and all, will be handed over to the Government after thirty years working *free of all expense*, as well as the colonization of the lands along the railways.

Art. 3.—The capital of the Company to be in specie and land:—

On the part of the proposer $25,000,000.

On National Government $5,000,000 in lands for colonization purposes.

The lands shall be only handed over to the Company after the formation of the Managing Board.

The proposer shall receive for his initiative 10 per cent of the capital in shares of the Company.

Art. 4.—The National Government, in consideration of the great advantages offered in Art. 2., shall guarantee 6 per cent per annum interest in gold on the capital.

The liquidation of accounts per guarantees shall be effected annually as follows:—

In case the net returns of the years' working be under 6 per cent of the paid-up capital, the Government shall pay the difference in gold for the payment of the guarantee. In case the net profits exceed 6 per cent, the Government shall be reimbursed with the surplus for all disbursements made on account of the annual guarantee.

After reimbursement of credits payable on the guarantee, the Government shall participate in the profits on the shares of 6 per cent on the capital contributed in lands, but only after payment of the 6 per cent on the paid-up capital of the Company.

When the minimum of net returns amounts to 6 per cent on the paid up capital, the surplus will be distributed as dividend between the Company and the Government up to 15 per cent in a ratio relative to the amount of capital contributed by both.

Art. 5.—When the profits exceed 15 per cent., half of the surplus to be paid to the Government and the other half to the Company.

Art. 6.—The National Government to give the following concessions:—

I.—The working and construction of the two principal railroads from Bahia Blanca to the Andes and to the Northern Provinces, and of all their branches, the direction of which shall be fixed by the Government; the works to begin three months after approval of the plans by the Government. The gauge of the principal line to be wide, equal to that of the Western Railway. The surveys to be completed a year after formation of the Company.

The works to begin simultaneously on both lines at the rate of 150 kilometres minimum distance per annum; telegraph lines to be erected along the railways; these works to be concluded before five years.

With regard to the transfer of the two railways, they will be made later on when necessary. The construction and conditions of same shall be matters of special arrangements, outside the limits of the present contract, which only embodies the concession of same.

II.—The establishment and working of six large steamers of at least 3,000 tons, built on the latest improved system.

III.—Do do of large docks and wharves in Bahia Blanca.

IV.—The personnel of railways and telegraphs to be half Argentines half foreigners.

Officers and crew of steamers to be composed of 25 per cent Argentines.

These steamers shall sail under French colors as long as the French Government pays its bounty on French ships; later on they will sail under Argentine colors.

V.—The Argentine Government to dispose of 10 o/o of the tonnage, free of freight (300 tons maximum) for transport of merchandise from Europe; a 50 o/o reduction to be made in fares of passengers bearing official character.

In the steamers, and the ordinary trains on the railways, troops, armament and military equipments will be carried at half the ordinary fare. The tariffs for both railways and steamers will be jointly arranged by the company and the Government.

VI.—When commencing operations the Company will at once establish settlements at points along the lines, suitable for tillage, 20 to 30 kilometres apart, with not less than 250 in settlers each.

VII.—The Company can undertake banking operations and shall have the faculty of emitting National notes, convertible into gold at sight, to the amount of double its capital, for the exclusive monetary service of its colonies and railways, being bound to keep a coin Reserve equal at least to one third of its notes in circulation.

VIII.—Finally, the Company will undertake the construction of highroads, connecting railways, the sinking of Artesian wells, the building of schools, churches, mills, distilleries, 'graserias,' brick-factories, saw-mills and all industrial establishments connected with Agriculture; also to introduce the agricultural steam machinery necessary to develop production.

Art. 7—The National Government, for the better realization of the provisions of Arts 3 and 6 will make free grant of the land required for the railways, stations, docks and wharves at Bahia Blanca. It will also sell to the Company—at a price to be agreed on, but which shall not exceed two National dollars per hectare, until the capital of 5,000,000 Nat. dollars stipulated in Art. 3 is formed—ten kilometers on each side of the line, or as much in other places near it, of all lands suitable for agriculture, as may be asked for, all raw products of or in the lands ceded to belong to the Company.

Furthermore, the Company shall have power, when its capital is all collected, to purchase from Government whatever lands it may choose, at the termini of the principal lines and branches, on the same terms, the superficies to be purchased not to exceed 1,500 leagues. All these lands shall be exclusively devoted to tillage and stock-breeding.

Art. 8.—The Company will bring into the country yearly from six to twelve thousand emigrants, receiving as compensation from Government ten dollars gold for each immigrant of from 12 to 40 years of age, and five dollars for those of from 6 to 12 years. To pay this, the Government will issue Foreign Bonds of 5 per cent interest and 1 per cent accumulative amortization yearly, which the Company will take at par.

Art. 9—The Company shall enjoy Fiscal Privilege for its credits on immovable property, chattels, live stock, implements, crops, etc. belonging to the settlers, until the latter pay their debt to the Company in full.

Art. 10—The Company shall be exempt from all National and Provincial taxation whatever. Neither shall the dividends on its shares be liable to any taxation; nor its implements, machinery, or anything imported exclusively for the work of colonization, or the building or keeping in repair of its railways, steamers, and establishments of all kinds.

The steamers of the Company shall enjoy in perpetuity the right to free entry and exit from the port of Bahia Blanca and the other ports of the Republic, saving and excepting any private concessions that the Honourable Congress has granted or may in future grant.

Art. 11—The charter of the "South Argentine Railway and Steam Navigation Company," shall last for 30 years counted from the day of inauguration of the two projected lines, which must be completed within five years after the approbation of the plans, saving *force majeure*.

Art. 12—After thirty years' work the Company will liquidate, the operation to be concluded in five years.

Art. 13—To carry out Art. 14, an Amortization Fund of 300,000 Nat. Dollars gold annually, with 6 per cent accumulative interest shall be created; the amount to be charged to the general cost of administration.

Art. 14—When the liquidation is completed in conformity with Art. 12, the railways, stations, rolling stock, dock and steamers shall become the property of the Nation, gratuitously, and without any indemnity whatever.

Art. 15—The National Government shall have a right to be represented on the Board in proportion to its capital in land; and it can also name an Inspector General at a salary which the Company will pay.

Art. 16—Any questions that may be unprovided for in this proposal shall be afterwards arranged mutually.

Art. 17—When the contract is signed, in order to guarantee the faithful carrying out of his proposal, Mr Edward Demarchy, or the Syndicate, will deposit in the National Bank, to the order of the Government, 500,000 hard dollars in National Bonds, to be returned to the Company when it has on Argentine soil materials worth a million of national dollars.

The foregoing, Most Excellent Sir, are the principal bases of our project; and I am confident, I repeat, that, in consideration of the great benefits that must result for the country, you will give it your support and lay it before the President of the Republic and Congress, for its sanction, so that our idea may become a legal fact and the fertile field on which the Nation and its sons will reap the choicest fruits of labour and civilization be at once opened.

I am always at the orders of Y. E. and Congress to discuss any modifications of our project.

God guard Y.E.

THE COLON THEATRE.

CARMEN.

What is the reason that "Carmen" in French pleases and in Italian does not give satisfaction? Notwithstanding the critique published by one of our French colleagues (who said that it was only because "Carmen" was not written in Italian that it did not please the public), the general opinion is there is no comparison between the two.

A principal reason is, that the dialogues are cut. For instance, when in the first act, "Carmen" says—"I do not speak, I sing for myself," she says this singing, also in contradiction to herself. This, with so many more excisions we might quote does not satisfy—the satire of the piece is cut out—it is not the same "Carmen." Then, what a difference between Mdme. Privat and Mdme. Ferni as "Carmen." Privat, with her dark colour, black eyes, high coiffure, was the "beau ideal" of a "Carmen." Mdme. Ferni, how well she interprets her part, yet she doesnot look like an "Andaluza." She makes a good "Carmen." This cannot be denied, but only for those who see the opera for the first time. Between her and Paola Marié we prefer undoubtedly Mdme. Ferni. Between Paola Marié, Mdme. Ferni and Privat, the last one gains the point.

Sr. Petrovich, as "José," was a good deal better than we ever saw that part given by Mauras of the Grau, or Piroia of the Dangon company. His voice is very powerful, and his acting fine. We call special attention to the aria—"Le fleur tu m'avais jetée."

The barytone is very weak in his part of "Escamillo." Mr. Danogn interpreted this role to perfection. M. Mangé was not so good. But, I suppose, Mr. Athos never was in Spain and never saw a bull-fight. He is stiff and not "á son aise."

In fine contrast with the abandoned devilryof "Carmen" was the tender rendering of "Micaela's" "Oui, je vous parlerai," with its Gounpd-like sacred strains. Following this is a most melodious passage for the "cellos" leading to the short aria for "José, "Ma mére, je la vois," which is as fresh and pure as composition can attain. Speaking about "Micaela," we cannot say that she gave satisfaction. Her make-up is not correct, and her acting and singing leave much to be desired. Only in the third act was her play a little more free.

The orchestra was very good, the overture was A 1, and the last act gave it full scope for its powers and precision, and the idea of the composer therein found its full meaning. The orchestra at this point brings to mind some of the best efforts of Berlioz.

"Suma sumarum," I, who never missed one representation of "Carmen," as given by the Dangon and Grau Companies, shall not go to hear it another time at the Colon. The artists all do their best, but the operette does not lend itself to a transformation into an opera.

I end with one question: Would it not be fair of the public to applaud the bailerinas? Mdlle Grassi, the "premiere danseuse," and Talliis, the "seconde danseuse," were very good in the second act. They ought to have their share in the bravos.

LETTERS OF CREDIT.

HIGHLY INTERESTING FOR AMERICANS VISITING EUROPE.

A lawsuit just commenced by Messrs Drexel & Co., a banking firm of this city, London and Paris, against Mr Henry Huddy, a wealthy retired merchant as well-known in New York as here, cannot fail to be interesting to Americans and others who intend visiting the Old World. In this lawsuit, the integrity which Letters of Credit have formerly enjoyed becomes compromised; and the great excitement which it has caused is principally due to it being the first case of this description that has ever occurred, and in which we find involved some of the banking firms of France, England, Holland and America.

The cause of this lawsuit is highly interesting and can be told in a few words. In the summer of 1881 Mr. Huddy started on a trip for Europe with his wife and brother-in-law. Before starting from here he obtained a Letter of Credit from the firm of Drexel & Co, issued in such a manner that he could draw on the firm of Morgan & Co. in £ stg. which firm in London represented the branch of the Philadelphia house; and in France on the firm of Drexel, Harjes & Co., the branch in Paris.

On the 19th of August 1881 Mr. Huddy and family arrived in Frankfurt, he having previously communicated with the firm Drexel Harjes & Co. The same day they started for San Mauricio and alighted from the train at Heidelberg, to take refreshments. In the station there was a great crowd, and whilst returning from the restaurant Mr Huddy and wife were surrounded and pressed upon by a group of individuals, who they were unable to recognise in the great confusion.

Mr Huddy carried his Letters of Credit and 300 francs in cash in a pocket-book in one of the inside pockets of his travelling-bag. A moment after entering the railway carriage he discovered that thebag had been burst open and the pocket book and its contents were missing. None of them spoke German, but with the help of an Englishman who was a passenger in same train, Mr Huddy sent a telegram to Messrs Drexel Harjes & Co. of Carlsrue, an hour's journey on horseback from Heidelberg, notifying them of the robbery. On the following day he sent a second despatch from Zurich to the Paris firm, and in answer they advised him that the Letter had been cancelled. This relieved his mind, since he believed the robber could not draw any bill against the Letter of Credit. Some weeks afterwards, on his return to Paris he, was greatly astonished on finding that the pickpocket had succeeded in drawing for the full amount of his Letter of Credit—5000 dollars, on the banking firm of Hoyake & Co. of Amsterdam, in connection with the branch firms of Drexel & Co. of London and Paris.

To obtain the money the robber had to falsify the signature of Mr Huddy, in view of which it was thought that the firm in Amsterdam would have to bear the loss resulting from their own negligence in paying the falsified bill. Notwithstanding, when he arrived here he found that the firm Hoyake & Co. was guaranteed, they transferring to their own credit 5000 dollars from the funds of Morgan & Co. of London. Messrs Morgan & Co. in their turn debited Messrs Drexel & Co. here with this sum, and they now make Mr Huddy responsible, although he has not received a dollar of it.

Mr Huddy has made numerous investigations in Europe, and he has discovered that his case is the first one that has occurred where money has been obtained on a Letter of Credit, stolen or in any other way lost by its owner. Amongst travellers this case has caused considerable excitement, owing to this Letter of Credit for such a large amount being cashed in a single day, as this one was. The robber succeeded in cashing it the day following the robbery.

The bankers accuse Mr Huddy of negligence, but this gentleman states that his case goes to establish the precedent, that if a person has a Letter of Credit drawn in his favour, should he lose it, he becomes responsible for its payment, and that the person finding same can cash it by falsifying the signature of the owner

Mr. Cassidy, the general Agent of Mr Huddy, says, that the written guarantee will not protect the bank against falsification. That the Letter of Credit, such as was paid, was a falsification, is indisputable, and to make his client responsable, he states, would be to convert Letters of Credit into a kind of threatened danger, which before were a means of convenience and protection for those in whose favour they were issued.

It is probable that the lawsuit will be concluded before the summer emigration to Europe begins, and no matter what the decision should be, the commercial circles here, in New York and all other great centres will look forward to it as a matter of great importance.—*La Republica.*

GRAND FOREIGN EXHIBITION.

BOSTON, MASSACHUSETTS, U. S. A.

The Foreign Exhibition Association is a Corporation organized under the General Laws of the Commonwealth of Massachusetts, U. S. A. Its charter is granted for the following purposes:

"The general improvement of the Manufacturing and Mechanical Interests of the United States, by means of holding worthy and adequate Exhibitions of Foreign Manufacturing, Artistic and Industrial Productions; the improvement of Educational Facilities afforded to Artisans; the providing of Foreign Libraries of Reference, for use at such Exhibitions; the providing of Lectures and Discussions on subjects of Industry, Science and Art; and the providing of all other proper means by which these objects can be accomplished."

The Association will hold an "Exhibition consisting exclusively of Foreign Arts, Products and Manufactures" in the City of Boston, to open September 1st, 1883, and continue open not less than three months. The advantages of such an Exhibition to Foreign Manufacturers, and others who may exhibit, must be apparent, while there can be no question as to the interest which it will awaken in the United States. This country has had no opportunity since the Centennial Exhibition, held over six years ago, to see the recent advances of Foreign Art and Industry. The National Government of the United States has manifested its interest in the enterprise, by legislation which will greatly facilitate the work of all interested, and will especially lighten the expense to exhibitors.

The City of Boston is the Metropolis of New England, and is the centre of a population of over three millions. It is an important commercial port, and presents facilities for the delivery of goods from foreign countries which excel those of any former International Exhibition. It is a centre from which radiate eight important lines of railway, connecting it with the entire railway system of the United States and Canada, and bringing it into close connection with every city and town in these countries. All the railway and other transportation companies have signified their willingness to bring passengers to Boston at greatly reduced rates during the progress of the Exhibition.

The Building in which the Exhibition will be held is centrally located, and of easy access from all parts of the city. It has been erected at an expense of over half a million dollars, and is constructed solely for Exhibition purposes; it has every facility for the rapid and easy delivery of exhibits, and every possible convenience for visitors. It has electric lights in abundance, steam power, water, gas, and a large hall for holding public meetings. It is so arranged as to permit of the separate and distinct representation of every nation in a "court" or section set apart for its exclusive use. It has, in all, over seven acres of floor space.

By an Act of the Congress of the United States, approved by the President, June 28th, 1882, all goods intended for this Exhibition will be admitted to remain in bond Free of Duty while on exhibition. At its close they may be sold upon payment of the duty, under the approval of the Government of the Association.

There will be no charge for 'space.' Blank forms of application and circulars giving all further particulars, accompany this prospectus, or may be obtained from any United States Consul or Consulate Agent, and Commissioners appointed by the Directors will visit the principal cities for the purpose of further facilitating the plans of Exhibitors. It is important that application should be made at the earliest moment possible.

Medals and Diplomas will be awarded to Exhibitors. No sales of the articles exhibited will be allowed, except for delivery at the close of the exhibition; but arrangements will be made by the Board of Directors for the sale of duplicates.

All correspondence should be addressed to Gen. C. B. Norton, Secretary Foreign Exhibition Association, Boston, Massachusetts, U. S. A.

RULES AND REGULATIONS.

1.—This Exhibition will open Sept. 1st, 1883.

2.—The Exhibits will be confined entirely to Foreign products and manufactures.

3.—Space will be furnished free.

4.—Transportation, receiving, unpacking and arrangement of Exhibits, will be at the expense of the Exhibitor.

5.—Exhibitors must provide, at their own cost, all show cases, shelving, counters, fittings, &c., and all arrangement of articles and decorations, must be in conformity with the general plan adopted by the Board of Directors. No show case to be over 15 feet in height.

6.—Designs of show cases will be forwarded to each exhibitor, with a statement of cost.

7.—Each package must be plainly addressed, "Foreign Exhibition, Boston, U. S. A.," and should have at least two labels affixed to different but not opposite sides of each case, and giving the following information: (1) The country from which it comes; (2) Name, or firm, of Exhibitor; (3) Residence of Exhibitor; (4) Total number of packages sent by that Exhibitor; (5) Serial number of the particular package. All invoices must be in triplicate.

8.—Within each package, should be a list of all objects it contains.

9.—The Board of Directors reserves the right of rejecting any proposed exhibit, and the introduction of dangerous, combustible or offensive substances, is strictly prohibited.

10.—The removal of exhibits will not be permitted prior to the close of the Exhibition; but all articles must be removed within sixty days thereafter, or they will be stored at the expense of the Exhibitor.

11.—Sketches, drawings, photographs or other reproduction of articles exhibited, will only be allowed upon the joint assent of the Exhibitor and the Committee on Exhibits; but views of interior portion of the building may be made by permission of the Board.

12.—Communications concerning the Exhibition should be addressed to "Gen. C. B. Norton, Secretary, Foreign Exhibition, 1883, Boston, Mass., U. S. A."

13.—All exhibits must be in position and finally arranged not later than Aug. 15, 1883.

Per order of the Board of Directors,
C. B. Norton.
Secretary.

PARIS LETTER.

(From our own Correspondent)

May 20th.

Paris has the reputation of being a very charitable city, and the number of public balls and theatrical representations, to say nothing of chronic lotteries organized in this end, would justify the remark. But it must be remembered, that there is no Poor Law in France, and the indigent rely on voluntary help for succor. But that help, especially in kind, is ever liberal and forthcoming. Just now attention is concentrated on the improvement of the dwellings of the poor and the reformation of the low lodging-houses. Last year an official return revealed that there are at present in La Belle France, 219,270 human dwellings without a window, no air, no light—Kraals in fact, inhabited by 1,300,600 people, or the one-twenty-eighth of the total population of the country.

There are quarters of Paris where the workmen leave their lodgings at five in the morning; in the street is a crowd impatiently waiting to take the places at a reduced price, of the warming pans,as the the departed are called.

At Roubaix there is a monster lodging house where the Box and Cox principle is in force, by means of which tenants obtain a shake down fifty per cent cheaper than elsewhere. It is a mistake to conclude the chiffonniers, or as they dub themselves 'biffins,' are the lowest classes in Paris; the outcast criminals are the last rung in the ladder. The former are in a sense a closeborough and do not admit in their guild any known criminal. There are 30,000 biffins, waifs and strays who live by picking up nightly the unconsidered trifles of the city's detritus. And the class is celebrated for the punctuality with which it pays its rent—two sous a day.

At the late Assizes of Caen, the judge, M. Clement, vacated the bench in favor of another learned brother, and took up position in the witness box. In February last the judge was returning home from the theatre; he heard the cry "help," "robbers"; he ran to the rescue, collared the thief, led him to the police station, and as a witness has now secured six years' imprisonment for the rogue. The Cloches of Ollioules, near Toulon, do not resemble those of Corneville. The eve of the National fete last July, the Cure received official instructions to direct a merry peal to be rung. Instead, the Curé who is an old royalist, ordered the most solemn dirge to be tolled. The mayor and town council were shocked, the police invaded the tower, and arrested the astonished bell ringers. Some republican pullers replaced them and the peals that might satisfy Saint Saëns or Wagner, could not be stopped, till the authorities had to arrest the volunteers for disturbing the peace. Hence, a cross action.

The lovely suddenness of our beautiful spring has had the effect of as suddenly forcing people to go to the country. What a relief after six months close confinement in horrible weather. Nothing but gaiety reigns in and around the capital. The nights are so fine that the houseless poor might be envied.

Paris is to have a grand commercial museum, on the same lines as that at Nuremberg. The peculiarity of the scheme consists in that the Government will not be asked for help.

The drawback to the foreign trade of France, besides high-priced labor, must be ranked her inefficient Consuls, and high customs' duties. Perhaps the military service must also be taken into account. Despite all her attempts to seize new territories, France can never be a Colonial power; her sons will never consent to live in foreign lands. Had fathers the liberty to dispose of their property as they pleased, that might compel younger sons to seek their fortune.

When a Frenchman dies, his goods and chattels must be sold, and the proceeds divided according to law, between his heirs. This is being applied to Emile de Girardin's effects; his collection of paintings, statuary and souvenirs are remarkable, and the bidding will be keen.

THE UNEASINESS ON THE CONTINENT.

The extreme, on the surface the almost absurd, importance attached on the Continent to the Tripartite Agreement would surprise Englishmen less if they understood more clearly the depth of the unrest still existing in Europe. They think that people on the Continent are as tranquil as they are at home, and fail to notice the extent to which the tranquility is one of strained expectation. We have seen reason recently to believe that the ablest men of business abroad are least satisfied with the situation, and the most averse to enterprises the returns of which may be postponed for any length of time. They all say, to begin with, that Prince Bismarck's health is not secure, and that no one can tell what will happen after his death. He has so completely monopolised power, that the immense force of Germany must then fall to men whose ideas are hardly known, and who may be inclined to enterprises from which he shrank. They may be by no means so peaceful as he has latterly been, or may be inclined to modify the internal government of the country in the despotic sense. A doubt at least as general prevails as to the course of events in Russia, where many believe that a war party might get the upper hand, and run great risks in order to get rid of domestic complications; while as to France apprehension is universal. The best men of business doubt most if the present situation in France can last, while many—perhaps a majority—agree with Prince Bismarck, and think that after any great change the ruler, whoever he is, will try to strengthen himself either by recovering Alsace-Lorraine, or by obtaining compensation for them in Belgium, or Italy, or even Spain. Those who hold these views do not, as a rule, speak definitely. They do not precisely expect this or that to happen, but they do expect something to happen, and that something disastrous, and they advise all their clients to abstain so far as is possible from long risks. There is a nearly universal uneasiness about politics, shown in all places in an indisposition to speculate, and in a readiness to believe absurd reports, and in some places, particularly in Belgium, on the Rhine, and in Vienna, by a strained attention to the smallest changes in French politics. A severe illness, for instance, of President Grevy would depress the Funds all over the Continent.

It is natural, therefore, that keen attention should be paid to all reports about the Tripartite Treaty. If that agreement exists and is solid, business men think that there is in it a guarantee for peace. The mass of force at the disposal of the three nations is so great that it would be impossible for any Power, or even any coalition, to attack the allied Governments. Germany, Austria and Italy could call out for defence at least 3,000,000 of men, fully provided, and with an unusual proportion of artillery. That is six times the force which France and Russia, in combination, could employ *at a distance from their own frontiers*, and at least half of it admits, as against two armies so distant from each other, of rapid concentration. The allied Power lies in a square in the centre of Europe, protected to the north and south by the sea, completely traversed by railways, and with its two most dangerous regions open to reinforcements from every quarter. The French armies could not penetrate 100 miles without being encountered by forces superior to their own, supported by equal reserves, and all directed by the skill of the German staff, now so famous that its orders would be implicitly accepted. Moreover, what is even more important, if the attack failed, the three nations have every reason to combine to inflict punishment. Germany would try to weaken France, and to obtain the line of the Vistula. Austria would claim the Balkan, and Italy would recover Nice and Savoy. The two suspected nations would not, unless under revolutionary enthusiasm, attempt such risks, and a peace is thereby secured, of which this is the grand recommendation, that if it is only solid it may survive Prince Bismarck. His successors, whatever they may do, will not voluntarily reject alliances which extend the power of Germany from the Baltic down to the Mediterranean, and even to the Black Sea. They will try to retain such advantages, and if they do, and are not themselves ambitious, the peace may be long. And it is a peace likely to be long for which business men are sighing.

There is little doubt among the well-informed that the agreement exists, for they think that settled by the confessions at Rome and Berlin. No Power, they say, would have so irritated France unless the statement were true, and France, therefore, rendered powerless to express her irritation. But the well-informed are not nearly so certain that the agreement is solid. They doubt if Italy is secure against Republican agitation; they question if the distaste for war is not increasing in Germany; and they suspect, to an extent insufficiently noticed here, the sincerity of Austria. They believe that the Austrian Emperor has never forgiven his defeat, and say that neither France nor Russia has yet exerted its powers of temptation, or made a serious attempt to break up the alliance. Russia can give the Balkan Peninsula as well as Prince Bismarck, or better, and France could guarantee Italy as effectively as Berlin. They do not trust much in the faith of statesmen when interest is in the way, and more especially the faith of Austrian Princes, who have to take the strong pro-French feeling of Poland and Hungary into their account. Every sign, therefore, bearing on the treaty is watched with eagerness, and little trifles, showing good feeling or bad feeling between the different Courts, are treated on all Bourses as matters of importance. Especially is the bad understanding between France and England observed, for if that should end, France, it is considered, would be set free at sea, and might find allies who if the sea were not free would be useless.

A good deal of all this feeling is exaggerated, those who express it taking too little account of the strong popular desire for peace, which almost prohibits carefully-prepared war. The feeling, however, is quite real, and explains much of the lassitude observable in business everywhere, the low price of what ought to be good securities, even Prussia paying 4 per cent. for loans, and the querulous eagerness of grave men for fresh information. This eagerness is most marked, and has greatly developed the habit of reading the English papers, which, as thoughtful men on the Continent know, wish to report all that occurs accurately, and are not disturbed by the feeling that fourteen days after a quarrel a foreign army may have crossed the frontier. A fear like that is very injurious to the judgment, and quite fatal to the sense of security which induces men to enter into heavy speculations.—*Economist.*

EDITOR'S TABLE

The appalling catastrophe at Sunderland, cabled to Havas, has shocked the public, all the more as the telegram leads to suppose that there was no fire at all in the theatre, only a false alarm. Let the disaster be a warning to us here. Fire or no fire, safety will be found in coolness and presence of mind. Even in the worst theatre fires, more people are always crushed to death in the rush for the doors than are burned.

We publish in our leading columns the great Demarchy scheme for Railways, Steamers and colonies, the biggest thing of the season. May we all live to see it carried out!

We are requested to announce that the morning service at the Scotch Church on Sunday next will be for Children, and consequently, there will be no Sunday School.

The Hale-Uriburu-Bujareo - Bunge proposal for a railway from Bahia Blanca to the Andes and Angol was given round yesterday in a neat pamphlet beautifully printed by our friend Kidd, of Calle Corrientes. It is a source of pardonable satisfaction to us to see Bahia Blanca made the turning point of so many gigantic schemes. Three years ago we took Bahia Blanca under our editorial wing and predicted what was coming. Few believed us then, but we appear to have a good many disciples now.

The old story from the Mount: Argentine deserter escaped from the barracks and was fortunate enough to reach his Legation, although a sergeant made a brutal attempt to hack him down. Life in the Oriental army must be an earthly Pandemonium when men prefer death to service in it. The wonder is that such an army holds together for a week.

The installation of the new Catholic Association takes place this evening at 8 p. m. We are requested to say that the Irish Catholic Association is warmly invited to attend, and would have received an invitation had its official address been known to the President of the new Association.

At last the industry of fruit-preserving is making a beginning here. Messrs. Warren and Co., of Barracas, are now turning out preserved pears, peaches and pickles that Cross and Blackwall would not be ashamed of; a delicous condiment, made on the model of that which, in combination with a few juicy mutton chops, got our esteemed friend, Mr. Pickwick, into legal difficulties with the charming relict of the defunct Mr. Bardell. Try Messrs. Warren's three Ps, but, above all, their Tomato Sauce.

The favourite steamer Maskelyne, Chevalier Hairby, commander, sails to-day. We wish her and all in her a pleasant trip home. There is no finer or nicer vessel to travel in on the rolling deep.

Who's the "President of the Friends of Natural History in the Plate?" Whoever he is, there is a letter lying for him at the G.P.O., and we hope it contains something to his advantage. The President of such a society requires all the advantages he can lay hold of.

A woman in Illinois, crazed by religion, imagines herself an angel. It is usually crazed young men who imagine young women to be angels.

A South Carolina bride's dowry included a one-thousand dollar set of false teeth. And her husband, when he speaks of her precious mouth, knows what he is talking about.

The Rev. Mr. Thomson's lecture on Capital Punishment, on Tuesday night at the Literary Society's rooms, was a great success. The Rev. gentleman made a clean sweep of his opponents, whose arguments were mere leather and prunella against his unanswerable pleading in favour of a law in full force in all the greatest and most civilized nations of the earth, and even in semi-barbarous ones, but which is only a law in name in this country, and more's the pity. The house divided after a most interesting discussion in which Messrs. Ramsay, White, Lowe, Colquhoun, Sewell, Pearson and Hutton took part, the result being 23 to 4 in favour of Capital Punishment. Had we been able to attend, the figures would have been 24 to 4.

"The greatest enemy to wheat is wheat," says Professor Blount. "Wheat cannot bear to be crowded. It fails to carry out its natural habits; as well does it fail to develop fully in straw and grain."

The *Porvenir* of Bahia Blanca is trying to have a Hospital opened down there. We wish it every success. The population of the place is increasing so very fast that there must be a fine opening for doctors and apothecaries and a Hospital is an urgent necessity wherever those gentlemen are to be found.

We hear that Patrizio's Illusionist Company will be here shortly. It is now in Montevideo. Illusions always pay splendidly in the Plate, and we have no doubt that Patrizio's Company will be no exception to the rule. We cannot, however, see the fun of the empresario Italianizing his name.

The papers say there is a political "jolgario" going on in Corrientes. There always is some kind of pow-wow going on in that favoured province, and even sugar-planting has no effect on it.

On Tuesday night a large family party encircled the hospitable table of Don Rufino Varela to commemorate his Silver Wedding. Mr. Varela and his amiable wife entertained the party royally. Soon after rising from dinner, the young people assembled commenced dancing. There were plenty of beautiful girls, all in the highest spirits, thus tending to make all the old people young again. We wish Mr. and Mrs. Varela every happiness on their way to their Golden Wedding.

This is the first day of winter, and the shortest day in the year this side of the Line. We wont be very long in gliding through the "invierno" into Spring and shearing.

"No, Sir," said the practical man, "no bric-a-brac on the mantel for me. It's a nuisance. Where's a man to put his feet?"—*Baltimore News.*

Mr Carvalho, whose splendid portrait of General Mitre now hangs in every lady's boudoir in town, has drawn another of Madame Ferni, the prima-donna, and this now effort of his pencil will, doubtless, be as great a favourite with the gentlemen as the first is with the ladies.

Oh! Rosary! Is it possible that what the *Capital* says can be true, and that you are going to start bull-fighting. If so, we give you up for good, and will never say a good word about you again. The second port in the republic to have a bull-ring! It's "chocante."

Our Packet Edition, for the French mail steamer Niger, which will sail on Sunday, will appear on Saturday morning.

According to an Ayrshire paper there is not a single copy of Burns's poems in the free public library at Mauchline.

"Brown-eyed daisies slumbering in a field of cream" is wha Western poet calls freckles on the face of a pretty girl.

Here's some news for kerosene men:—

"According to Ludwig Noble, the oil-king of Russia, a gigantic fortune awaits the inventor of a lamp capable of burning the thick but non-explosive oil of Baku, which yields twenty-five per cent of kerosene, and is therefore heavily handicappped as against the rich petroleum of America. Herr Noble is of the opinion that a revolution in the oil trade would follow the invention of such a lamp; for Baku then would not attempt to compete with American kerosene, but would flood the world with non-explosive oil.

One of the greatest Highway robberies ever reported in the Banda Oriental was perpetrated last week near Salto. A 'tropero,' belonging to the renowned Saladero of Guabiyu, was attacked by four gauchos, and robbed of £1200 stg. in sovs., and 200 pats in Brazilian paper money. It is really astonishing how with all the Banking convenieces that we have in the Plate purchasers of cattle for the saladeros should be going about the camps with such a very large amount of gold and paper money.

"Good luck," as a rule, comes to the man who deserves it.

Facts

The Cliché adjoining is a perfect representation of the Mandrake Plant, now so extensively recommended by the most celebrated practicioners for all diseases of the Liver.
This famous curative is largely employed in
Dr. Schenck's
Mandrake PILLS
And which has made them so favourably known by the great number of cures of Liver complaint in this country during the past few months. The number of Physicians constantly using them for what are known as chronic and incurable liver troubles, attests their great value in all cases of this kind. The suffering can make no mistake in trying them, as they are purely vegetable and harmless.
A gentleman, well-known in this city, was cured of
Constipation
from which he had suffered forty years, by taking a few doses! This case has hardly a parallel in the history of medicine.

ON 'CHANGE

June 20th, 1883

Patacon	25.00
Cedulas A	100½
Cedulas E	83¼
National Bank Shares	103

The fall in Cedulas staggers the market; all thought that the stock had touched bottom at 83, but operations were effected this morning for the end of the month as low as 82⅞. Reams of Cedulas are being thrown on the market, and the stock is drooping under its own weight. The bulls had hoped that the fall in the market would have been stemmed as on former occasions by the direct influence of the Bank, but the continued heavy issue of the stock and the onslaught of the bears have upset all calculations, and Cedulas never looked weaker.

Over 400,000 Cedulas were sold during official hours. Thirty three thousand changed hands for cash at firm rates; the market opened at 83½ and closed at 83¼. Over 200,000 were sold for the end of the month; the market opened at 83¼, went up to 83⅜, and then began to decline; 20,000 were sold at 82⅞, and 30,000 changed hands at 82⅞. There was a stand-from-under feeling as these prices were marked on the board. 130,000 were sold for the end of July at 83¼ and 83, closing price. The market closed weak and the tendency looks downwards; the bulls sincerely think that a reaction must soon take place after the fall.

National Bank Shares shared the weakness of the Cedula market. Close on 3,000 shares were sold during official hours. One hundred and fifty changed hands for cash at 103. About 2,000 were sold for the end of the month; rates opened at 103 weak, tumbled to 102¾, rose then to 103¼ and closed at 103. The market resisted the fall for the end of the month. Six hundred shares were sold for the end of next month at 104.

There is a decided weakness about everything in the market; although money is offered freely at 9 o/o on stocks discounts are reported to be more difficult. The private banks are not at all liberal, and the National and Provincial Banks discount little.

The exchange market is very dull; very few operations reported and little exchange offering. The market looks weak.

In another column we publish the great Demarchy project to form a large joint-stock company for the construction of railways, colonization, &c. It is the greatest scheme ever mooted in this country. It is stated in the market that Rothschild is at the back of the proposers.

Application was this day made to H.E. the Minister of the Interior on behalf of the very numerous purchasers of National Government lands in the fifth section to have the surveys and measurement approved. Over two years have now elapsed since these lands on the Colorado and on the sea coast were surveyed by Sr. Cascallares, and many parties both here and in Europe are prejudiced by so great a delay. We have every hope, now that the matter has been brought before Dr. Irigoyen, that the measurement will be approved, and the titles to the lands made out to the various purchasers.

We correct our judgment respecting the able article in the *Diario* on the conversion of the paper money by the Provincial Bank. We thought Sr. Don Rufino Varela was the author, but it appears we were in error, as that talented gentleman, on the day in question, instead of writing leading articles for the *Diario* on so severe a subject, was preparing for a grand ball to be given that night in his house to commemorate what we term the silver wedding. May he live to give another ball to commemorate his golden wedding.

We hope in a day or two to be able to announce the starting of another joint-stock estancia in the far North West, 15 leagues of prime land, all to be wire fenced, and ten thousand cows "al corte" to make a beginning.

Immense was the attention paid on 'Change to-day to the news that Dr. Romero, Minister of Hacienda, is about to lay before Congress a project for the total abolition of export duties. The news we fear is too good to be true, and it is difficult to say how the Government would meet the service of the loans without these duties.

This was a farewell day on 'Change. Messrs Bossas, La Planche, De Bruyer, Offermann and many others took leave of their numerous friends. Their departure will leave a great void in the hall. The Maskelyne take them all to Europe. She leaves a crowded ship, with a full cargo. Chevalier Hairby will be enveloped in wool-buyers.

There was a rumour spread in the market to-day that the Shares of the National Bank would be quoted in London. The report did not prevent the market from falling to 102¾ and closing weak at 103.

The sales at the ring during official hour were:—
Cedulas—
For cash E 33,000 at 83½-⅜-¼
For June 21st E 6,800 at 83⅛-83
For June 30th A 20,000 at 100½
For June 30th E 232,000 at 83¼-½-⅜-83-82⅞ to 82⅞
For July 31st E 130,000 at 83¼-83
Sales, 421,800
National Bank Shares—
For cash 150 at 103
For June 30th 1,900 at 103-102¾-103¼-103
For July 31st 600 at 104
Sales, 2,650

The fine British barque Albany entered the Riachuelo yesterday with a cargo of railway materials for the Transandine Railway.

The Mensajero arrived yesterday from Asuncion, and entered the Boca with a cargo of general produce from up rivers.

Thirteen vessels entered the Riachuelo with general cargoes of wool, potatoes, etc.

The Dutch steamer Watergoose and the Bahia Blanca are expected this week from the South.

The waters of the Riachuelo have begun to fall at last.

Lower down we publish the balance-sheet of the National Bank. The following comparative figures will be found interesting:—

Circulation of notes, 31st May 1883	$7,598,523.18
Do do, 30th April, 1883	6,965,167.28
Increase	$ 633,355.90
Saldo of discounts, 31st May 1883	$11,051,693.97
Do do, 30th April, 1883	10,803,105.40
Increase	$ 248,588.57
Advances in account current, 31st May, 1883	$11,052,726.23
Do do, 30th April, 1883	10,801,700.92
Increase	$ 251,025.31

Mr. Agar took leave of his friends to-day. He leaves for Europe to-morrow in the Maskelyne.

Seventy leagues of land, far beyond the 5th Meridian, are reported sold to an English Company.

There is a rumour in the market that one hundred leagues of land in San Luis have been bought by an English Company at the rate of $2000 per league.

The activity in land speculation is unprecedented; very many sales are kept under reserve, but the many operations published give an idea of what is going on. Cedulas, shares and cattle are falling, but land is rising.

Cedulas and shares ruled firmer during afterhours. Cedulas closed at 82⅞ buyers for the end of the month, sellers at 83. National Bank Shares closed at 103¼ buyers for the end of the month.

Government Proveeduria Bills are reported done at 8 o/o.

The sales at afterhours were:—
Cedulas—
For June 21st E 5,000 at 82⅞, buyer.
For June 30th E buyer at 82⅞, seller at 83
National Bank Shares—
For June 30th buyer at 103¼

In another column will be found the decree ratifying the Devoto contracts, the news we published the other day of the prompt commencement of these works, we again confirm—all now is straight, finished, and arranged as regards the contract, and we only want to get the new loan launched in London to set everything right; we apprehend, however, there will be no delay in negotiating the loan, and on favorable terms.

The floating debt of the Municipality is at last to be liquidated and paid off. We hope the Gas Company will now be paid, the committee named is composed of the following gentlemen: Messrs Villegas, Caseres, Parodi, and Alen. Mr Villegas is probably the member who knows most about the debt history.

A fine estancia in the South, near Bahia Blanca, in the 'Partido' Pringles, has been sold and apparently cheap, four leagues for $720,000 %.

Mr. Livingston has also made an important sale, ten leagues of National Government lands in the 2nd and 3rd Sections for $75,000 % per league.

The Mendoza bank is now merged into the National Bank with Mr. Benegas as manager. This is a most important business and ought to improve the shares, yet the contrary is the result, and the shares go down in the face of the contract.

The Minister of the Provincial Hacienda has sent a batch of land bills to the Provincia Bank, close on six millions %; these bills are the best in the market and the large amount shows what is doing in public lands.

The whole Bolsa is turned upside down by the rather stunning news that the Government will in these day's issue a decree ordering the removal of the Provincial executive bag and baggage to La Plata; the hegira begins, we hear, in Jany, although we much doubt if there will be houses enough in the new town to accommodate the Cabinet and its employers, still the move is to be made, and it corresponds with some vague political rumours afloat.

The report of the Congress Committee, on the conversion of the Public Debt Bill, was published this morning in the *Prensa* and will be given round in pamphlet form. It is a very lengthy document and reveals the great industry of the members of the committee. Owing to pressure on our space we must hold it over, but, as we have already said, the sense of the market is dead agains the half measure proposed; better not to meddle in the matter at all than to spoil a really good measure by only half doing it.

Yesterday the Provincial Chambers passed another new loan law authorizing a loan for two millions pats. to built houses in the new Capital, La Plata, for the Government clerks. In the multitude of new loan schemes now before the public there certainly must be much money.

At the Plaza Once de Setiembre the following business done:—

BANCO HIPOTECARIO
Esta abierto al servicio público todos los dias de trabajo desde las 10 de la mañana hasta las 4 de la tarde.
Presta sobre hipoteca con reembolso á largos plazas.
Por el valor del prestamo de cedulas hipotecarias que producen una renta igual al interes que cobra el Banco.
El valor del inmueble hipotecado no debe ser menor de $f 2000 ni el prestamo menos de $f.500.
Los prestamos hipotecarios no pueden exceder de la mitad del valor del inmueble.
El interesado se obligara a pagar una anualidad que dure todo el termino del contrato. La anualidad se compone del interes del capital prestado, del fondo destinado á amortizarlo y de la comision del Banco. La anualidad se divide en trimestres, y las cedulas que al presente da el Establecimiento son:—
Serie E.
Dura 20 años 100 dias 6 o/o de interes, 2 o/o de amortizacion y 1 o/o de comision.
Pagadas las anualidades convenidas por todo el tiempo del contrato, queda la hipoteca redimida, y libre el deudor de las obligaciones hacia el Banco. El deudor podra libertar el inmueble, en todo o parte, anticipandose el contrato.
El que pretendiese prestamos del Banco se presentara por escrito, designando el inmueble que ofrece en hipoteca de una manera precisa, acompañando los titulos de propiedad, los boletos de contribucion directa y espresando al mismo tiempo su estension el gravamen, o los gravamenes que deben ser levantados simultaneamente que se constituya el credito hipotecario. En la Secretaria encontraran el formulario y las tablas de amortizacion.
Los deudores por trimestres haran las entregas de 8 a 15 de Enero, 8 a 15 de Abril, 8 a 15 de Junio, 8 a 15 de Octubre.
Con el fondo cobrado por amortizacion, se rescataran cedulas por sorteos a la par, y con anticipacion de un trimestre.
Las ventas de las cedulas trimestrales las pagara el Banco de 1 a 15 de Enero, de 1 a 15 de Abril, de 1 a 15 de Junio y de 1 a 15 de Octubre.
El Banco podra servir de intermediario gratuito entre el capitalista y el hipotecario para la colocacion comercial de las Cedulas. A este objeto recibira depositos sin interes, que para su colocacion tendran la prelacion con que entraron al Banco.—Estos depositos pasaran al Banco de la Provincia.
El mismo Banco hipotecario recibe sus cedulas en deposito gratuito, dando al depositante una libreta que servira de certificado del deposito.
El deposito se admite desde una cedula de $f.50 que es el minimum de las que emite el Establecimiento.

BORWICK'S
BAKING POWDER
Used by thousands for making wholesome Bread, Cakes, Flour-Puddings, &c. Sold in 1d. 2d. packets and 6d. & 1s. boxes, by all Storekeepers and Grocers.
Invaluable at the Diggings and in the Bush, also on board Ship, as small loaves of the best Bread or Scones can be made in a few minutes without the aid of Yeast.
Private Ward, during the Zulu war, writes:—"I should just like you to see the real farmhouse bread that I bake! The oven is one dug in the ground, and is just large enough to hold our daily quantum of two loaves. We use flour, water, salt, and BORWICK'S BAKING POWDER. My bread often surprises me, it is so light, and white as snow. Some of our men will insist that I have been 'in the trade,' and nothing I can say will convince them to the contrary."
Four Gold Medals awarded. Manufactory:—G. BORWICK & SONS, Chiswell Street, London.

Venta Particular.
Llamamos la atencion de los capitalistas del pais, sobre la gran propiedad utilizada para el dique de la Colonia, consta de treinta mil varas cuadradas sobre el mismo puerto de la Colonia con estension hasta la lengua del agua y de ahi hasta el canal como queda marcado en el plano, siendo la parte la mas profunda del puerto de la Colonia, pues basta saber que la fregata inglesa de guerra "Volage" ha estado anclado a una distancia de una cuadra y media de la costa.
Esta concesion fue hecha por el Gobierno Oriental a perpetnidad consta de una casa habitacion con oficinas y dos barracas de material, cada una de ellas tiene capacidad para tres mil fardos de lana.
Como se ve, esta es una empresa de gran porvenir, no tan solo por la concesion de la parte del canal que es profundo como tambien el puerto el mas seguro en el Rio de la Plata.
La localidad se presta para establecer depositos o molino de vapor por la cantidad de trigos que se cosechan en sus alrededores.
Al mismo tiempo hay una quinta con una area de treinta cuadras cuadradas con casa de familia, caballerizas, arboles frutales, monte y bien cercada en una posicion magnifica de cincuenta varas de altura sobre el Rio de la Plata. Por mas pormenores dirigirse al Sr. Benjamin D. Manton, casilla de Correo 832.

A las 12 en punto del dia
Se dará principio a la venta por orden de su dueño el Sr. D Diego N. Carman, por falta de salud y tener que ausentarse del pais, de todas las existencias de la cabaña "El Lago."
200 animales vacunos Durham, importados y nacidos en el pais, entre las que se encuentran las celebres vacas Niñitas premiadas con los primeros premios en las Exposiciones de la Sociedad Rural Argentina y Continental, como tambien la madre y demas familia de dichos animales que no han estado en exhibicion.
Los toros Waterloo Grand Duke y Endimion son los que estan actualmente al servicio de la cabaña; el primero importado de Inglaterra, por el Sr Downes, y el segundo remitido por el Sr Elia, por el cual se nos pago 25,000 ps., siendo uno de los animales que mas han llamado la atencion de los criadores mien tras estuvo en nuestra casa y que con sobrada razon escribio el Sr Elia, "que mandaba animales en los cuales tenia la seguridad de perder dinero" probandolo el hecho de no haber repetido sus remesas.
200 ovejas y carneros Lincoln, siendo una parte de ellos importados expresamente para esta cabaña, de la del Sr Clark en Inglaterra como tambien los padres que las sirven. Estos animales seria demas recomendarlos, pues ningun criador de esta raza en el pais, ha alcanzado los precios obtenidos por esta cabaña.
EN SEGUIDA
Caballos, petizos, cerdos, un tilbury de 4 ruedas y una volanta de 6 asientos, americanos verdaderos, guarniciones, etc, etc., 1 carrito ingles, 1 carro mas, 2 carretas de bueyes, 5 maquinas de segar alfalfa, 1 id para dar vuelta al pasto de las que hay muy pocas en el pais, 1 rastrillo de caballo de acero, 2 maquinas de quebrar grano, 1 de aventar, 1 piedra de afilar, arados sobre ruedas de sanjear y simples, todos de acero, 1 fragua, vigornia, torno, banco de carpintero, piedra y todos los utiles necesarios para una herreria, y carpinteria e infinidad de objectos para el trabajo de un establecimiento de campo.
Este establecimiento solo dista una legua de San Fernando, lo cual facilita el embarque de animales para los rios o el Estado Oriental casi sin gastos y la proximidad a la ciudad facilita el trasporte de los animales por cuales quiera de los Ferro Carriles.
Siendo todas las vacas de esta cabaña mansas, pueden ser destinadas para leche o para raza.
NOTA IMPORTANTE—En la Estacion San Isidro habra carruages para conducir la concurrencia, á lo que se ruega haga su viage por los trenes que salen de Central a las 7.30, y 9.55 a.m.
El Remate se suspendera solo por lluvia el mismo dia señalado para la venta.
NOTA IMPORTANTE—Para facilitar a la concurrencia las mayores comodidades les avisamos que la Empresa del Ferro Carril a Campaña pone un tren extraordinario los dias Domingo y Lunes los que saldran de Central a las 10 a.m. cuyo tren parara en el paraje llamado Ombu, distante 10 cuadras de la cabaña. Este tren regresara de ese paraje a las 5 y 30 p.m. y el boleto de ida y vuelta solo costara $20.

El Jueves 28 de Junio 1883
A las 2 p.m.
Estos campos estan situados en la IV Seccion de tierras Nacionales—zona que corriendo hacia el Oeste entre los fuertes Argentino y Puan, y a poco mas de 20 leaguas de Bahia Blanca, es reputada como de los mejores campos del Sud.
Los campos son de pastos abundantes, mezclados y tiernos, y el agua se encuentra con facilidad en todas partes, muchos de los lotes teniendo aguadas permanentes de riquisima agua.
Los informes sobre la calidad de este magnifico campo se encuentran en el Departamento de Ingenieros Nacionales y copias de ellas estan a la disposicion de los interesados en nuestra casa.
La situacion de estos campos no puede ser mejor; es una seccion que va a ser cruzada por varias lineas de ferro carriles cuyas concesiones deben ser despachadas por el Congreso en este año y sus arranques son el gran puerto de Bahia Blanca, llave principal de la inmensa campaña Sud, destinado a ser la California de la America del Sud.
El gran Ferro Carril del Sud, cuyos terraplenes llegan ya a Bahia Blanca que quedara abierta al trafico dentro de 4 a 5 meses, pasando a pocas leguas de Puan dejara los campos que ofrecemos en venta a un dia de distancia y puede facilmente preverse el impulso que dara a ellos asegurandoles un brillante e inmediato porvenir.
Tiene por linderos capitalistas los Srs. Cambaceres, Drysdale, Tornquist, Jaime Cibils y Buxareo, Pedro Saubidet, Saturnino Unzue y otros que a no dudarlo van a formar grandes establecimientos de campo, que forzosamente aumentaran el valor de los campos linderos.
La venta sera liberal, sin base de ningun genero y condiciones ventajosas para el pago. Una tercera parte al contado y el resto a uno, dos, y tres años de plazo con interes del 7 o/o anual y pagares hipotecarios.
Por planos, y permenores ocurran a nuestra casa Alsina 78.

leguas cuadradas
En lotes de
4 LEGUAS
ESPLENDIDOS CAMPOS
Sin Base.
Terminada la venta de las 44 leguas de la IV Seccion, procederemos al remate de 12 leguas kilometricas situadas en la VII Seccion fraccion C. num. 7, 8 y 13, lindando por el Sud con el lote num. 18, propiedad del General D Nicolas Levalle, al Este una gran area de cien leguas del Sr D. E. Casey.
El campo que ofrecemos en venta es de superior calidad, por toda recomendacion solo diremas, sino que aqui tuvieron sus tolderias las tribus de Pincen, pues es sabido que los indios no se establecen sino en los campos superiores.
Hay en estos terrenos buenos Montes de maderas duras, que es una gran ventaja para la formacion de poblaciones, corrales etc. y estan cruzados por dos caminos.
El ferro carril proyectado de Bahia Blanca a Mercedes cruzara estos campos por un costado. La venta se hara sin base.
Dinero de contado.

A las 2 de la tarde
Procederemos, por orden terminante de sus dueños, a vender en remate publico y bajo la base arriba mencionado, en nuestro casa, calle Florida 22, segundo patio, una y media legua de campo, apropiado por la calidad de sus pastos para la cria de ganado lanar y vacuno.
Este campo dista 5 leguas del Saladillo, donde pronto llegara el tren, 8 del Pueblo de las Flores y 6 de la Estacion Colorado, del ferro carril del Sud, lindando con los Señores Goan y Jose M Pinel, Laguna Chica y Sres. Lozano y Santillan.
Cada puesto pagan por un radio de 100 cuadras de 5 a 6000 m/c por año, siendo sumamente baja la base fijada con relacion a la venta que produce y a que estos campos jamas se inundan.
Inutil creemos llamar la atencion de las personas que se dedican a la cria de ganaderia sobre la bondad de estos campos, pues pocas veces se ofrece la ocasion de encontrar tan buenos en venta

The Colony in Gainza
Lands payable at eight years' credit without interest.
We have just concluded the sale of the 56 leagues of land we offered in Gainza at $250,000 m/c per league, payable 10 o/o or say $25,000 m/c cash, and the balance in eight yearly payment of $28,125 m/c without interest; last payment comes due in 1891; 28 purchasers of all nationalities bought these 56 leagues.
The land is noted for its goodness, and Clark's railway from Buenes Aires to Valparaiso passes near it, and will place settlers within reach of this city in one day.
The purchasers of these lands will probably double their capital in five years, although they have eight years to pay for them; because in the hands of 28 proprietors, in 5 years time we shall see all the elements of pastoral and agricultural progress firmly fixed in this colony.
We have still some 20 Leagues for sale, and we invite sheep and cattle farmers whether half-leaguers or ten-leaguers, to come to our office to 178 Calle San Martin to see the plans and study this business.

"Zig Zag Harrows'

Messrs. M. FORRESTER & Co.
Beg to inform the Public that they have just received large consignments of
Ploughs (Two and Three Furrow) and Zig Zag Harrows
Of the well-known
HOWARD Brand
These Harrows are made of the best wrought iron, specially rolled for the purpose, and the tines, which are all steeled, cut a separate track at a uniform distance. By means of a simple patent "guard" the nuts are prevented from shaking loose.
The fact that Messrs HOWARD have sold upwards of
250,000
"Sets of Harrows" is a sufficient proof of their superiority and excellence.
These Harrows have "always" gained the First Prize in competition with others.
Sev sizes are in Stock.
